@Louis_CAD

Can this lead to an ANR? ⁉

Why so verbose?

What are their values at this point? 🤔 🤔 🤔

Errors handling: just logged?

A lot of var...

A blocking semaphore...

SO MUCH CODE!

How to integrate that into the project I'm working on?

Why did I chose this job?

Can it crash? 😰

In how many ways?

Is there
a simpler way?

Potential memory leak?

A readability (bad) example

SO MUCH CODE! 😱

Why so verbose? 🤮

A lot of var…

What are their values at this point? 🤔 🤔 🤔

A blocking semaphore…

Can this lead to an ANR? ⁉️

Can it crash? 😰
In how many ways?

Errors handling: just logged?

Potential memory leak?

How to integrate that into the project I'm working on?

Is there a simpler way? 😔

Why did I chose this job?

Cognitive overhead
