Functions signatures

```
fun answerToTheUltimateQuestion(onAnswerAvailable: (Int) -> Unit) {  
    thread {  
        var result = Long.MAX_VALUE  
        while (result > 42) result--  
        onAnswerAvailable(result.toInt())  
    }  
}
```

An orange speech bubble with a white border and a white triangular tail pointing downwards. The word "Callback" is written in white text inside the bubble.

Callback

How to cancel it?

That's more code!

**Threads are
expensive!**
