

CPS Transformation

```
suspend fun createPost(token: Token, item: Item): Post { ... }
```

Java/JVM

callback

```
Object createPost(Token token, Item item, Continuation<Post> cont) { ... }
```

Continuation

```
suspend fun createPost(token: Token, item: Item): Post { ... }
```

```
Object createPost(Token token, Item item, Continuation<Post> cont) { ... }
```

```
interface Continuation<in T> {  
    val context: CoroutineContext  
    fun resumeWith(value: Result<T>)  
}
```
