@Louis_CAD

Growing libraries ecosystem

- kotlinx.coroutines (reactive streams w/ Flow, integrations with Play Services, RxJava2…)

- AndroidX (WorkManager, ViewModel, Room, Lifecycle & LiveData soon...)

- Ktor (multiplatform http client)

- Retrofit, SQLDelight soon…

A few great articles on coroutines

- <u>Cold flows, hot channels</u>

- <u>Coroutine Context and Scope</u>

- <u>The reason to avoid GlobalScope</u>

- <u>Explicit concurrency</u>

- <u>Blocking threads, suspending coroutines</u>

- <u>Futures, cancellation and coroutines</u>

- <u>Structured concurrency</u>. Explains the problems it solved.
